Building Permit Valuation Table

The unit costs are intended to comply with the definition of "valuation" in Section 223 of the 1997 Uniform Building Code™ and thus include architectural, structural, electrical, plumbing and mechanical work, except as specifically listed below. The unit costs also include the contractor's profit, which should not be omitted.

The building permit fee is based on valuation and computed from the table below, approved on June 18, 2002 and increased by applying the Engineering News Record (ENR) San Francisco Area Building Cost Index History (1915-2011) index.
